

Look sharp like The Enormous Crocodile

You will need: cardboard, pen, scissors, paint, paintbrush, elastic.

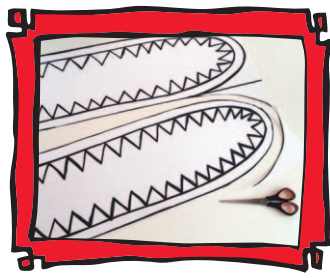

1 Find card as long as your arm

Draw a line down the middle of your card. Add curved lines at one end to form the outline of your enormous mouth.

Now you can start adding teeth and gums.

2 Cut it out - careful it's sharp

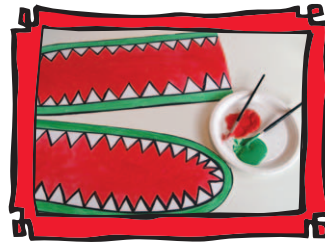

Cut carefully around both halves of the mouth - ask an adult to help if you need to.

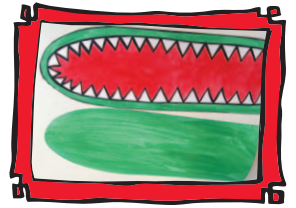

3 Red and green - you'll be seen!

Now it's time to paint - find a bright red for the mouth and green to go around the edge.

Leave some time for the paint to dry.

4 Now it's time for the back

Turn your croc mouth over and paint the back green.

Give it some time to let the paint dry.

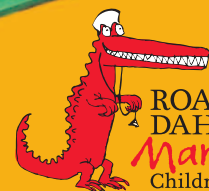

Don't be too snappy!

5 Elastic-tastic

To make the arm straps, cut small holes and feed through strips of elastic.

Make sure you tie the ends up nice and tight.
